

KEEWAYDIN DISCOVERY CENTER EARLY INTERVENTION SERVICES

Kennewick School District

Are you concerned about your child's development?

Keewaydin Discovery Center is a special education preschool designed to help your child, three to five years of age, meet their individual developmental milestones and transition into the elementary school setting. We are a play based preschool that provides a safe nurturing environment for all children with disabilities.

Evaluation and Eligibility

Parents and caregivers are an essential part of the process. Each child referred to us is screened by a team of specialists. We use standardized methods to determine whether additional evaluations are needed. Once the evaluation is completed, the team determines program options for students who qualify and are eligible to receive special education services.

Our Team

- ◆ Parents
- ◆ Special Education Teachers provide specially designed instruction for cognitive, adaptive, and social skills.
- ◆ Speech-Language Pathologists provide specially designed instruction for children who have a variety of communication disorders.
- ◆ Physical and Occupational Therapists provide specially designed instruction in both fine and gross motor skills.

We believe that each child is a unique individual with a distinct personality, learning style, and family background. We foster growth through developmentally appropriate child and family centered practices.

**It is never too early—
or too late—to start.**

Services are free of charge for qualified children who reside in Kennewick School District.
